

Twin Lakes Association Official Ballot Results

Voting on the issue of gas/oil well drilling is now complete, and ballots have been counted by the Board's Secretary, Matt Hilfer. The count was verified by the Board's President, Tom Tadsen, and witnessed by two TLA property owners.

A total of 217 ballots were received prior to the deadline. These included two ballots with no preference marked, one ballot with no name address or signature, and one ballot of questionable authenticity. Both Board officers agreed that these four ballots should be excluded from the count, and the witnesses voiced no objections.

The 213 valid ballots yielded the following results:

Discontinue Drilling =	184	(86.4%)
Continue Drilling =	29	(13.6%)
